Susan,

Please see correspondence from Gary and I below. Please advise.

Mark:

It should not be an issue if you can get here as soon as you complete your work at West. Could you talk to Susan to see if she want to send someone else down as well.

Thanks

Gary Moore

Subject: May Cooperage

Gary,

As per our discussion yesterday, a site inspection and meeting has been scheduled for June 3-4 at West Fertilizer and I will be attending. I originally thought that the inspection/meeting would be done on June 3rd only. This means that I won't be able to mobilize to May Cooperage until Tues afternoon/eve, depending on how soon I can leave West. Hopefully this won't affect scheduling of site activities.
